

CUP OF CULTURE

TOMORROW'S POWER

Tomorrow's Power takes us around the world from war torn, oil-rich Colombia where people have been building a peace process from the bottom up, to Germany, where activists are pushing the country to leave behind the extraction of fossil fuels and complete its transition to renewable energy. And finally to Gaza City where daily energy blackouts are being tackled by health practitioners through solar power in order to provide essential care in hospitals. Film will be presented with closed captioning.

Post-film discussion will be held with Students for Justice in Palestine (SJP).

FREE AND OPEN TO THE PUBLIC
