SERIES

THE FUTURE IS BLACK, THE FUTURE IS INTERSEX

SEAN SAIPA WALL

The concept of intersex justice is a response to the systemic conditions that harm intersex people. For Black people and people of color who are intersex, we contend with multiple identities that shape our relationship to the world, our friends and loved ones and even ourselves. This talk will explore the birth of intersex justice, the campaign to end intersex genital surgeries on infants and children and why this work is vital to our survival across communities. *Co-sponsored by RCSGD.*

**Tuesday April 20, 12 pm PST
Online Lecture**
